A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/26/06 has been entered.

Although the added limitation "condensation reaction with elimination of a simple molecule" is not literally supported by the specification, this is not new matter because page 5, line 33-page 6, line 1 suggests condensation reactions by using specific examples of said condensation reactions, such as, demethanolation and dehydration. Page 5, lines 24-31 gives examples of reactants, such as 1,2-diethoxy ethane, which would undergo a deethanolation reaction. One of ordinary skill in the art would appreciate that all these are types of condensation reactions and release simple molecules.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Scott Q. Vidas on 12/12/06.

The application has been amended as follows:

Claim 20, line 7, cancel "diethyl ether".

The following is an examiner's statement of reasons for allowance:

The claimed invention is novel over the prior art of record cited because said art **fails** to teach or suggest a polishing composition and method of use, wherein the polishing composition comprises the claimed specific combination of components. Specifically, the use of the claimed reaction product is not defined.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any foreign language documents submitted by applicant has been considered to the extent of the short explanation of significance, English abstract or English equivalent, if appropriate.
